THE BATOPLAST RANGE

Polyethylene, made to your order.

BATOPLAST is BATO's polyethylene range: packaging films for pallets and products, membranes for concrete floors, site-safety fences and tapes, and PE bags.

Every product is made to order. Choose prime (virgin) or secondary raw material, the size, the colour and whether it is printed. We take efficiency and cost into account and offer the grade that fits the job.

RAW MATERIAL	SIZE	COLOUR	PRINT
Prime or secondary PE	Made to your dimensions	Natural, blue, black or custom	Printed or unprinted

BATOPLAST · 01

Bulk Garbage Bags

Garbage bags in several grades to customer demand, perforated (on a roll) or loose (bulk).

Virgin or secondary raw material, in any size and colour the buyer requires.

TECHNICAL SPECIFICATIONS

RAW MATERIAL
Virgin or secondary PE

FORM
Perforated roll or bulk

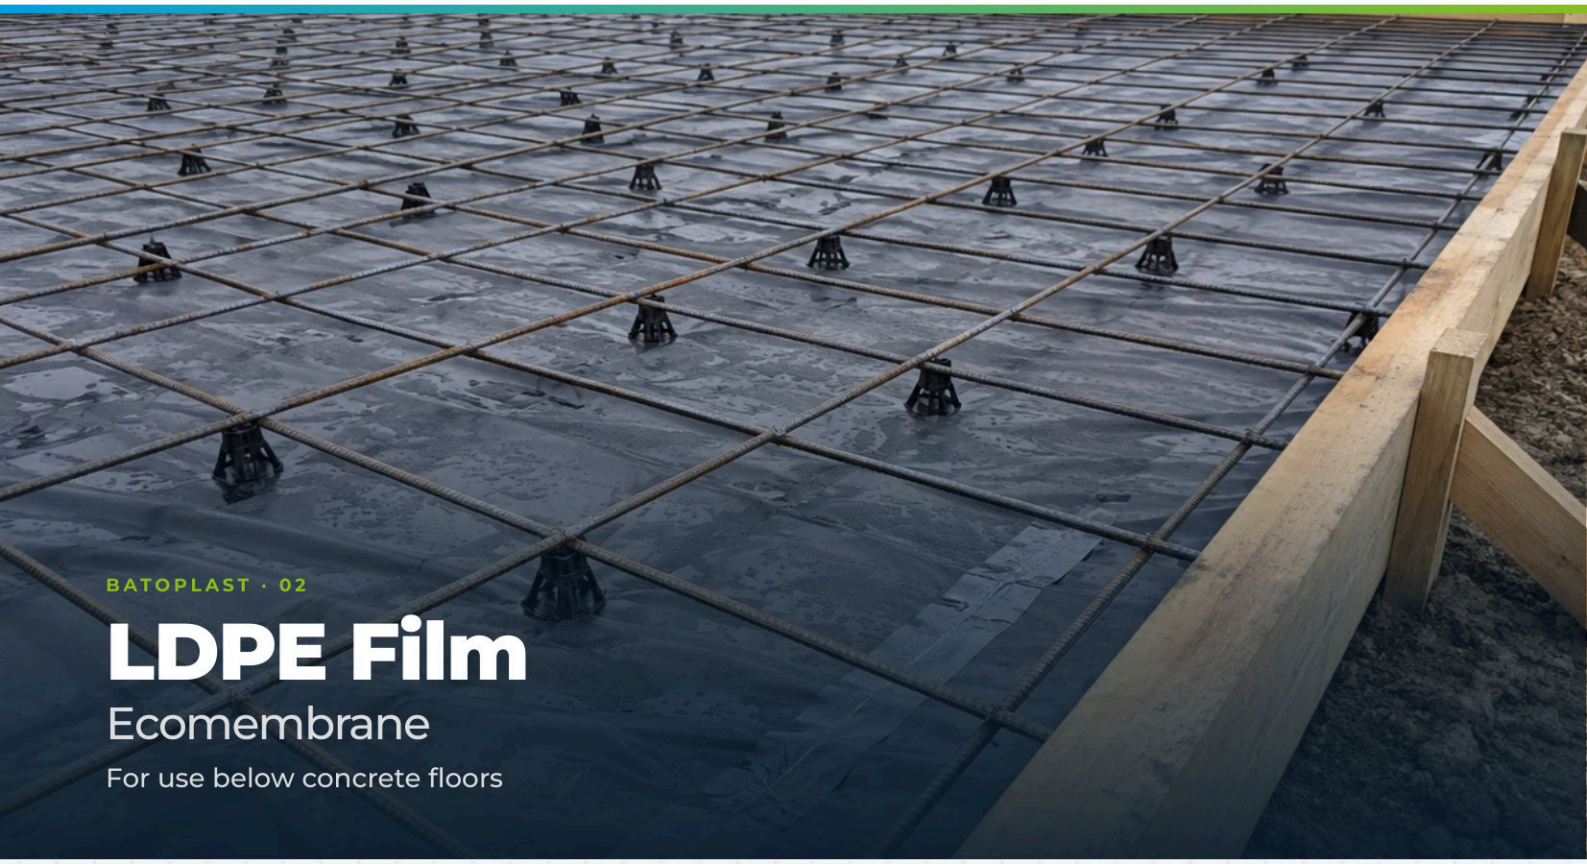

SIZE / COLOUR
Any, on request

HEAVY-DUTY CONTRACTOR BAGS

BATOPLAST · 02

LDPE Film

Ecomembrane

For use below concrete floors

A polyethylene membrane laid under concrete floor slabs, supplied in several grades so each project gets the right balance of quality and cost.

Each LDPE film grade has its own specification. We recommend the grade by weighing efficiency and economy against your requirements.

TECHNICAL SPECIFICATIONS

RAW MATERIAL
Original or secondary, on customer request

WIDTH
Min. 20 cm – max. 400 cm (800 cm one side open)

COLOUR
Natural, blue, black or any colour on request

LAID UNDER THE SLAB

BATOPLAST · 03

LDPE Pallet Cover Films

Cover films pack tiles and other palletised goods safely for transport and protect them against water, mud and dust.

Used across many industries. Standard production uses prime (original) LDPE; secondary-quality LDPE is available on request.

TECHNICAL SPECIFICATIONS

RAW MATERIAL
Prime or secondary LDPE

SIZE
Any size, printed or unprinted

COLOUR
Natural, blue, black or any colour on request

BATOPLAST · 04

LDPE Film Grades

Nine LDPE film grades, from virgin to black. Tell us the application and the budget; we match the grade.

1 Virgin

2 Semi Virgin (Off-Grade Virgin)

3 Special Transparent Grade

4 Transparent Grade

5 Mid Quality

6 Honey 1

7 Honey 2

8 Black 1

9 Black 2

PACKED AND PALLETISED FOR EXPORT

From virgin to black. Each grade has its own specification. Tell us your application and we recommend the right one.

BATOPLAST · 05

LDPE Shrink Rolls / LDPE Rolls

Our highest grade, produced from original (prime) LDPE (low-density polyethylene). Secondary raw material is available on request.

Made in any size and colour to customer demand. The most requested widths are 20 cm to 400 cm (800 cm one side open).

TECHNICAL SPECIFICATIONS

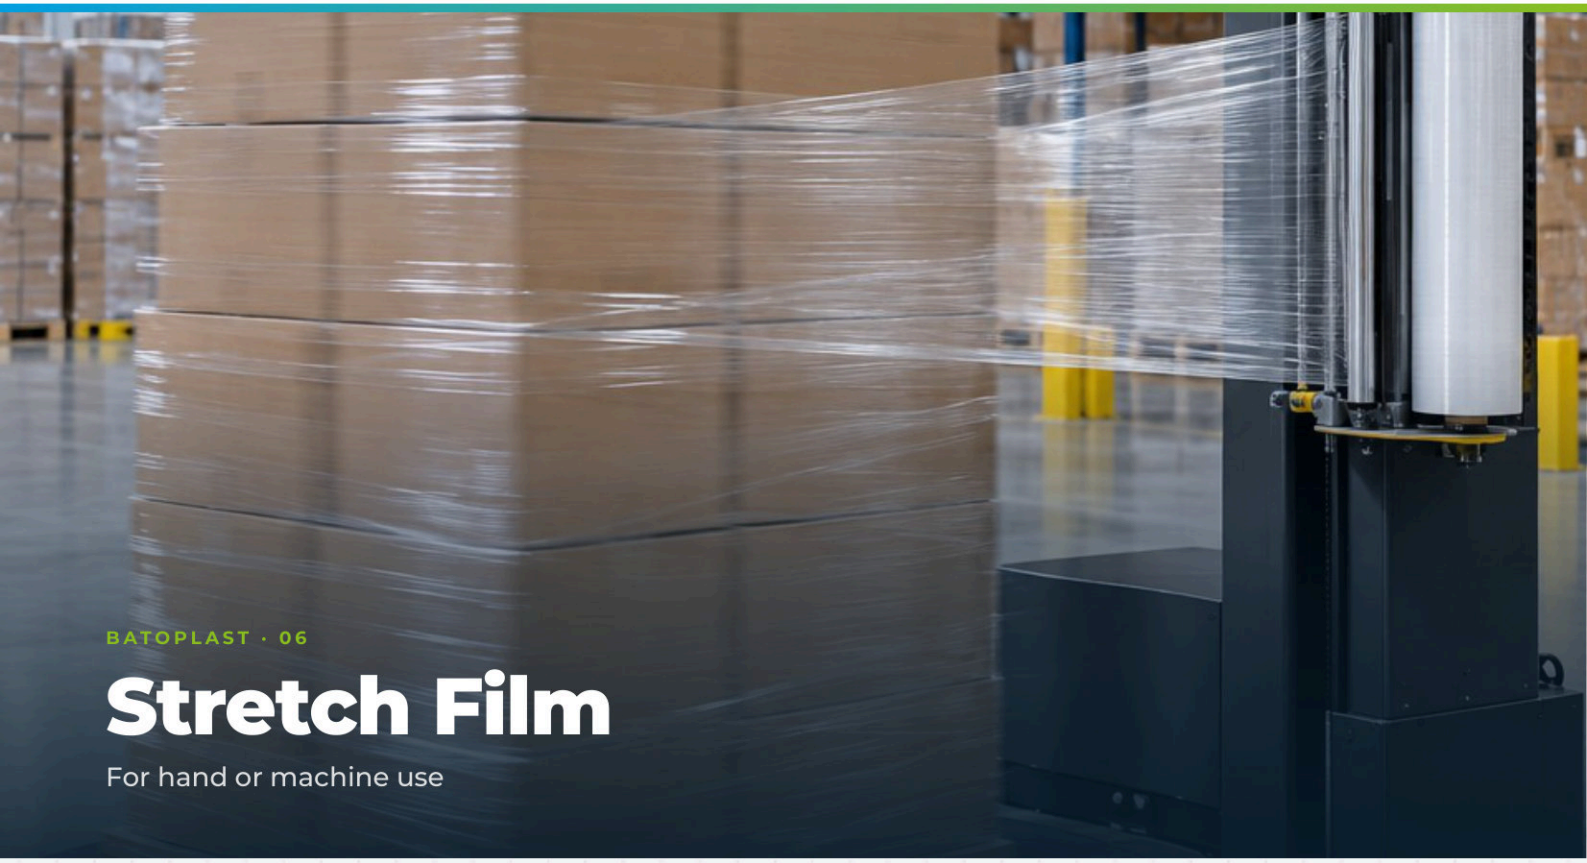

RAW MATERIAL
Original (prime) LDPE

WIDTH
Min. 20 cm – max. 400 cm (800 cm one side open)

COLOUR
Natural or any colour on request

LDPE SHRINK ROLLS

BATOPLAST · 06

Stretch Film

For hand or machine use

A 5-layer wrapping film produced by cast-film technology from LDPE with tack (cling) layers laminated in.

The raw material and tack layers give the film a flexibility other packing materials lack: it grips tightly and holds the load together for a long time. Most of our stretch production is transparent.

TECHNICAL SPECIFICATIONS

STRUCTURE	**5 layers, cast film**
RAW MATERIAL	**LDPE with laminated tack layers**
MAIN COLOUR	**Transparent**

TWO TYPES

Hand stretch
For manual or semi-automatic wrapping

Machine stretch
For automatic wrapping machines

BATOPLAST · 07

Safety Fences

A dedicated BATOPLAST grade made from prime PE, for clearly marking pedestrian walkways on site.

Safety fences help prevent accidents and add a further safety measure for workers on construction sites. Available in standard sizes and in 80–800 g/m² to customer request.

TECHNICAL SPECIFICATIONS

RAW MATERIAL	**Prime PE**
WEIGHT	**80 g/m² – 800 g/m²**
SIZE	**Standard sizes or on request**

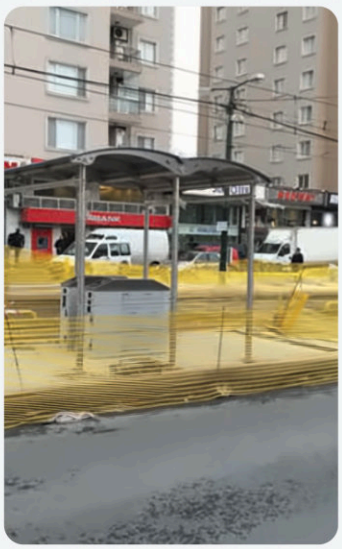

CONSTRUCTION SITE

EVENT BARRIERS

BATOPLAST · 08

PE Caution Tape

Caution tape for occupational safety, underground line location and warning signs.

Made to standard parameters or with custom print. Original or secondary raw material, any size and colour on request.

TECHNICAL SPECIFICATIONS

RAW MATERIAL
Original or secondary PE

SIZE / COLOUR
Any, on request

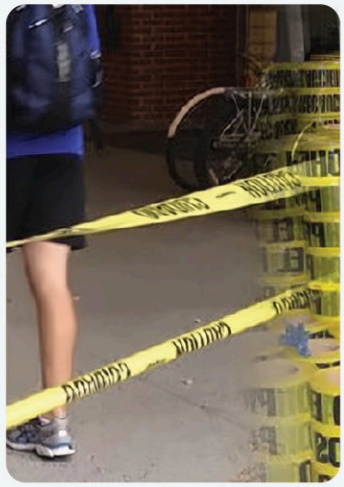

PRINT
Standard or custom printed

STANDARD USES

- Police & gendarmerie crime scene
- Natural gas
- Plumbing
- Electric cable lines
- Telecommunications
- Security
- Communication companies
